

## **FIRE SAFETY**

Known throughout the furniture industry as the manufacturer of the finest upholstered furniture, TRS Furniture has always been held in the highest regard for its product styling, fabric selection, attention to detail, exceptional comfort and its unwavering commitment to quality. Equal to this commitment to quality is our concern for our customers' safety. To this end all TRS products meet or exceed all voluntary industry fire safety standards as established by the United Furniture Action Council (UFAC). Furthermore, all TRS products regardless of where they are purchased also meet the California residential fire code, TB #117. TRS's decision to meet not only the UFAC voluntary fire safety standards but to also meet TB #117 demonstrates our commitment to making our products safe. However, your good judgment is of utmost importance to keeping you and your family safe by preventing house fires. Obviously, we strongly encourage you to be diligent in this matter.

We thank you for purchasing TRS Furniture. With proper care this purchase should provide you many safe years of enjoyment and comfort.
